

Modbus Junction Box

For quick and easy interconnection of VPFlowScope sensor modules, we offer a convenient junction box. This junction box contains a special PCB, with screw terminals for the trunk cable and the derivation cable.

Features:

- > Aluminium IP65 enclosure, made by ROLEC
- > 3 Cable glands for VPFlowScope and trunk cable included
- > Built in PCB with termination resistor jumper

Order codes

VPA.5030.020	Junction box for Modbus networks. Add one per VPFlowScope for a Modbus RS485 multi drop network.
VPA.5000.005	Cable, 5m/ 16.4 ft with M12 5pin connector on one side, open wires on other side.
VPA.5000.010	Cable, 10m/ 32.9 ft with M12 5pin connector on one side, open wires on other side.

Specifications

Construction	Aluminium enclosure, powder coated
Dimensions	125 x 80 x 57 mm
Gland material	Steel, silver
