DREAMS
DON'T WORK
UNLESS
YOU DO !!

WITH GREAT DETAILS COME GREATNESS

XINMIS dedicates effort into great details. We believe in order to achieve greatness, attention to even the smallest detail should not be forsaken.

This is an element that many had taken granted for. Believing kitchen is the heart of home, origin of health & happiness, we focus on the design, material used, technology, functionality & harmony to fulfill the users' need. These qualities differentiate ourselves from other who are also experts in aluminium product.

We are inspired to provide an all rounded service focusing on aluminium kitchen cabinet. Our services range from consultation, designing, production and installation.

LIGHT WEIGHT

DURABILITY

LOAD CAPABILITY 120KG

XINMISconcept NIGHT SKY

“Night Sky” is a design that features the calmness of midnight.

The midnight blue color on the cabinetries represents the night sky, the contrasting bright colors represents the shining star lights, while the charcoal black aluminium bridges the connection between two.

The form and direction circulate in the way to provide easy movement for users. Result in convenience, cleanliness and simplicity.

XINMISconcept MINIMALISM

Black stripes and white panels, XINMIS give you a design that is Minimalist at its best.

A lot of people have the false perception that minimalism represents 'restrictions'.

However the deeper concepts that minimalism wants to bring forth is the idea of freedom. Freedom from fear, freedom from away, freedom from overwhelm.

XINMISconcept COZY

It is best when we find coziness in our own space. XINMISconcept "COZY" gives the user the feeling of home to relax, loosen up the muscle and letting go of the worries after coming back from a stressful working day.

Aluminium on cabinetries create solidity and coolness, while the use of wood brings out softness and warmth, creating a balance feeling of space to the user.

XINMIS concept WALK-IN WARDROBE

Unlike traditional closet, the internal layout of XINMIS walk-in wardrobe can be easily modified and adjusted to suit your ever changing needs. In addition, we are using aluminium and glass as the main materials, which are very remarkable for their resistance to corrosion and high durability.

“Shangxia” concept

Shangxia is a concept that combines the two approaches: minimalism and functionality. We believe 'what goes around comes around' and have the faith to make minimalism functional. It was indeed a perfect combination. This inspiration led us to the innovation of an integration system, Shangxia. The innovation also represents our sincerity towards achieving great quality of minimalism and functionality in our every product.

Therefore, various considerations regarding minimalism, functionality, beauty, and customer satisfactions were incorporated into the early design of Shangxia. Being passionate in furniture details, we strive to produce items that are functional and easy to use. With our constant pursue of quality in craftsmanship, we were finally able to bring this innovation to life.

“上下”概念，创新于极简与实用之间

以极简与实用的概念为启发，我们相信凡事皆因果相应，极简化为实用，完美结合。

这灵感引领我们新创了“上下”一体系，也展示了我们对于产品的极简性与实用性的高度要求及诚意。

涵盖极简、实用、美观以及客户满意度的种种考量，都被纳入在“上下”的设计里。

我们热衷于研究家具的细节。这使我们时时都能创造出功能齐全，易于使用的产品。凭着对于高端的工艺执著，使这创新有了丰富生命力。

PATENT PENDING

ABOUT XINMIS FOUNDER

Our founder, Mr. LEE WEE HENG, has more than 13 years of experience in the aluminium industry, and 10 years of experience working with branded Malaysian company as a production manager.

He is a specialist in creating unique module design for aluminium carcass. Principle in Quality Throughout the business, Mr. LEE helped to develop unique quality guidelines and rigorous implementation of materials and products testing in the laboratory. Besides that, he requires all of XINMIS materials to be monitored during production. For example, the humidity of the storage room, 24 hours of immersion and conditional testing of materials were carried out in order to build up high durability in our products.

Why XINMIS?

Our founder, Mr. LEE uses his experience in the business to produce unique and useful products. By focusing to avoid wastage of aluminium and maintaining the product durability, we never stop improving on the carcass module. In short, we focus on product value, functionality and integrity in our business.

(XINMIS has been awarded the ASIA HONESTY ENTERPRISE SDN BHD IN 2016 & ASIA HONESTY PRODUCT AWARD certificate no:2016109 & 2016041)
