

Power supply units

FA-310

Description

Switching power supply which permits the installation of an amplifier and up to 10 or 11 modules on the support frame. Power supply system with 20 wire flat cable for different feed voltage.

Applications

Required for feeding the modules of the equipment.

Characteristics

Protected against power surges, overloads and short-circuits. Zamak chassis with side grills to facilitate proper ventilation. Supplied with power cable for amplifier and 10 modules, or 11 modules.
