

3001~3058

ANTIRUST AGENT
COATING AGENT**3001-6 SS-COAT 909AL(SMELTING ALUMINUM PLATING COAT)**

FEATURES

- Excellent Anti-Corrosion Property.
- Remarkable Heat Resisting Property.
- Excellent Adhesive Capacity.
- Outstanding Welding Property.

USES

- Maintenance and Alternative Use for Smelting Aluminum Plating and Metalicone.
- Welding Primer for Various Steel Materials.
- Alternative Use for Aluminum Plating and Repair Painting of Damaged Plating Parts.
- Finish Plating such as Aluminum Plating.

PACKAGE

- Aerosol 420ml/can, 20cans/Box

3002 SUS COAT L-316(STAINLESS STEEL COATING AGENT)

FEATURES

- Provides maximum corrosion on metal, chrome, ceramic and copper surfaces.
- Highly resistant to chemical attack, abrasion, corrosion, etc.

USES

- Exhaust and steam pipes, mufflers, radiators, production equipment, engines, furnaces, plumbing fixtures, chemical processing equipment.

PACKAGE

- Aerosol 420ml/can, 20cans/Box

**3003 ZINCOT N-50(ZINC-RICH COLD GALVANIZING SPRAY)**

FEATURES

- Heat resistance is excellent(250°C)
- Superior rust prevention effect, Best adhesion.
- Welding can be done without removing coating film.
- Application area is 2~3m²/can.
- Approved by Korean Register of Shipping.

USES

- Repairing and substitution of hot-dip galvanizing and metalicone.
- For rust-prevent of iron steel products and structures.
- Repair damaged galvanized part.
- Weldable primer of various steel materials.

PACKAGE

- Aerosol 420ml/can, 20cans/Box
- Liquid 1kg/pail
- Liquid 4kg/pail

**3005 SPRAY BLACSEN(NORMAL TEMPERATURE GRAPHITE COLORING AGENT)**

FEATURES

- Mainly composed of ultra-corpuscle graphite.
- Superior water-proof, oil-proof and heat-proof.
- Excellent adhesiveness and wear-proof.
- Superior anti-corrosiveness.
- Can be applied only on required spot.

USES

- For graphite coloring of stainless, aluminium, copper and all other metals.

PACKAGE

- Aerosol 420ml/can, 20cans/Box

3006 LONG#2(HEAVY DUTY RUST PREVENTER)

FEATURES

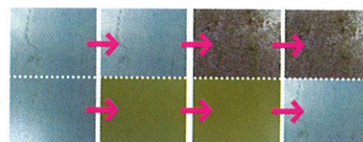

- Long-lasting rust-prevention effect(Outdoor : 2 years, Indoor : 3 years)
- Lead-free RoHS
- Harmless for plastics, rubber, etc.
- Contains no chlorinated solvent.
- Forms heavy waxy film to be moisture, sand, dirt, dust-resistant.

USES

- Contains no chlorinated solvent.
- Rust prevention of all metal parts and equipment.
- Lubricating metal parts of friction and movement: chains, cables, springs, hoists, wire rope, ball joint, etc.

PACKAGE

- Aerosol 420ml/can, 20cans/Box

**3006-1 LONG#2G(LONG TERM RUST PREVENTER FOR MOLD)**

FEATURES

- LONG#2G is specially designed for rust preventing under severe and tough condition. (makes a strong rust-prevent film)

USES

- Storage of mold
- Equipment, tools, engine and military supplies for long-term keeping indoors and outdoors
- Vessels, chemical plants and airplanes under hard conditions like moisture, salinity, acid and alkali
- Automobiles, snowplow, military equipment, hoist, agricultural machinery and railway cars easily exposed to corrosion
- Outdoor electry system, irrigation facility, military transportation vehicles and their electric systems.

PACKAGE

- Aerosol 420ml/can, 20cans/Box

3007 Z-30 (PREVENT RUST AND CORROSION ON ANY METAL)

FEATURES

- Prevent rust and corrosion on any metal
- Excellent antirust effects
- Excellent adhesiveness
- Excellent heat resistance and chemical-resistance

USES

- prevent rust and corrosion on any metal
- Agricultural equipment and snowplow
- Piping and opening tank of freezer and airconditioner manufacturer
- Pipeline of refinery plant
- Rustproofing of machinery and equipment of chemical plant
- Outdoor steel structures
- Welded portion of guardrails in expressway
- Rustproofing of water discharge channel system of irrigation channel

PACKAGE

- Aerosol 420ml/can, 20cans/Box
