

ELECTRIC MOTOR CLEANER

Spanjaard Electrical Motor Cleaner is a high flash point safety solvent for cleaning of electrical and mechanical components.

APPLICATIONS

Spanjaard Electrical Motor Cleaner quickly dissolves oil and grease and removes dust and grime from electrical and mechanical components. It quickly evaporates allowing minimum down-time on electrical equipment.

APPLICATION INSTRUCTIONS

Parts to be cleaned may be dipped, sprayed, brushed or wiped clean. Due to the accumulation of contaminants in the main tank with dipping and spraying it is advantageous to have a final rinse in clean solvent, which can then be returned to the main tank.

Unless there is excessive contact time **Spanjaard Electrical Motor Cleaner** will not harm the normal insulation and metals found in electrical equipment.

TYPICAL PROPERTIES

Appearance	Water white fluid
Density at 25°C, g/m ^l	1.29
Flash Point, °C	>80
Toxicity, TLV, ppm	45
Di-Electric Strength, KV	26
Evaporation Residue, mg/l	52

PACKAGING

5l Tin
20l Drum
210l Drum

HANDLING AND STORAGE

Use in well ventilated area. Prolonged breathing of the vapours and excessive contact with the skin should be avoided. Store indoors. Refer to Safety Data Sheet.
