

## BRAKE CLEANER

Spanjaard Brake Cleaner is a heavy duty specialised spray for the removal of brake pad phenolic resins, brake pad dust & other brake pad degradation products.

Contains no surface active agents or soaps.

### APPLICATIONS

A specially developed spray. It removes brake pad phenolic resins, brake pad dust and other brake pad degradation products with the aim of giving an improved contact surface, which has the following benefits:

- Reduces disc brake squeal.
- Improves brake performance.
- Fast drying with no residue.
- Meets European Economic Union requirements for dust free maintenance.

Brake pad squeal normally comes from "chatter" of the brake pad backing plate on the calliper and can be cured by applying a smear of Spanjaard Copper Compound on the back of the backing plate.

### WARNING

Check compatibility with rubber or plastic in non-brake uses. Do not spray onto painted surfaces. If sprayed onto painted surfaces, wash off with water immediately.

### APPLICATION INSTRUCTIONS

- \* Remove wheel and expose brake system.
- \* Spray can in upright position, liberally onto COOL brake surfaces
- \* Collect flush residue with a tray.
- \* Wipe surface with a clean dry cloth or allow to air dry.
- \* Replace wheel.

### TYPICAL PROPERTIES

Density	0.756 g/ml
Appearance	Colourless Liquid
Odour	Solvent like

### HANDLING AND STORAGE

Store undercover. DANGER – Extremely flammable aerosol. Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50°C, Keep away from heat / sparks / flames / hot surfaces. No Smoking. Do not spray onto painted surfaces.
