BOXLOUVRES

SPACE METAL BOX LOUVRES or LATTICE SYSTEM

Series 07 is a stylish metal louvres system that makes a uniquely crafted collection championed by fine engineering for today's performance demanding and fashion conscious Designer. Also cost effective and versatile, this system is highly suitable for the institutional, commercial, industrial and residential building of tomorrow.

With the increasing demand for feature sunshades to be fitted to the facades of building, our custom made sunshades are an ideal option. As design requirements vary between projects based on both practical and aesthetic intent, these sun louvres may be custom made to suit the individual demands.

Paint System/Coatings
Powder coating (standard) :
minimum 60 microns thick coating
providing excellent surface protection and finish.

SERIES 07

FEATURES

- High performance and adaptable system
- Delivers outstanding results with value for money
- Highly customizable to demanding M&E equipment specifications
- Can be retro-fitted or incorporated in to a new project
- Available in a large range of premium colors including powder coat and PVF2 finish
