

LPG Vaporizer(KDV Series)

Electric heated and dry type (No water)

Approval

- Electric dry-type
- Capacity : 30 ~ 100 kg/hr
- Design pressure : 1.77MPa
- Explosion proof : Ex d IIB T4
- High quality and long-life electric heater
- Safety devices
 - Prevention of liquid LPG overflow with reset by mechanical float
 - LPG Pressure safety valve : 1.76MPa
 - Overheat protection
- LPG Temperature & Pressure gauge
- Electric power on-off switch
- Electric power lamp for the power on-off condition
- High corrosion resistance in comparison with wet type vaporizer using water as heating medium
- Installable in narrow space or wall by miniaturization and weight reduction
