

EFFLUENT PUMPS

Features:

- IP 68 Protection and F Class insulation.
- Low temperature rising durable for long service life.
- Built in thermal overload protector.
- Double mechanical seal available for 1HP and above.
- High efficiency hydraulic suction for energy saving.

Applications:

- Drainage of cellar.
- Groundwater effluent.
- Civil engineering & construction.
- Agriculture and irrigation.
- Tunnel and caisson drainage.

KS Series
