

BLACK BOX™

Online Process Monitoring

Tired of late nights in the office trying to troubleshoot what went wrong with your manufacturing process?

So many different aspects to consider, too many trials to run, no idea how to rectify the problem.

If that sounds like you, rest assured because here comes the PERFECT solution to all your problems.

“Essentially, it shows you how your process is flowing in real-time and it does it all without you having to be there.”

STEVEN TEOH; BUSINESS DEVELOPMENT MANAGER

WHO?

Our one of a kind Online Process Monitoring system BLACK BOX, engineered to cater to the precise needs of the stringent Hard Disk Drive industry.

WHAT?

We take pride not only in the versatility of its functions, but also in its sleek, simple and sophisticated look. You are looking at the FUTURE.

WHY?

BLACK BOX offers a wide selection of process monitoring from Air Particle Counter, Liquid Particle Counter all the way to PH levels and Relative Humidity.

YOURS!

The best part about the BLACK BOX is that every unit is made based solely on YOUR needs. We make it your one and only.
