

Description

MMX-40-TP is an HDBaseT twisted pair output card working with MMX series, it has 4 RJ45 outputs paired with receiver TPHD402R for transmission of HDMI, IR & RS232

Features

- HDBaseT output card works with MMX
- Transmission HDMI, IR & RS232 at 70M
- Paired with transmitter TPHD402R over single CATx cable
- Bi-directional IR and RS232 pass through
- Hot-swappable, friendly to use

Technical Specifications

Input/Output	4 RJ45 (Female RJ45); <0.3V~1.45Vp-p; 75Ω
Output signal	HDBaseT (RJ45)
Gain	0dB~10dB@100MHz
Bandwidth	6.75Gbps
Resolution Range	Up to 1920 x 1200 or 1080p@60Hz, supports 3D
Transmission Distance	70M(Max)
SNR	>70dB@100MHz - 100M
THD	<0.005% @1KHz
Return Loss	<-30dB@5KHz
Differential Phasic Error	±10° @135MHz-100M
