

Rear Panel for cable connection

Feature

- Compact size for high quality audio output
- Built-in high power Class-D power amplifiers for both low and high frequency
- Factory preset active crossover
- Applicants:
 - * Café & restaurant outlets
 - * Meeting rooms
 - * Retail outlets
 - * Fitness gyms

Technical Specifications

	KCS-120SA
Acoustic Design	Bass reflex
Component	200mm LF driver
Power rating	120 watts
Crossover	Active 120dB/Oct
Frequency range	4Hz to 20KHz
Impedance	10KW (Unbalanced inputs)
Power amplifier	Class D PWM High efficiency for LF & HF
Enclosure	MDF
Connections	RCA socket for Line input/output
Dimension mm (WxDxH)	432 x 381 x 229
Front design	Perforated metal grille
Weight	17kg
