

Features

- 120W mixing amplifier
- 6 input channel
- Phantom power for input 1
- Treble and bass controls
- Convection cooling system
- 70 / 100V line output, 4 ohm output
- Short circuit, thermal protection

Technical Specifications

Rating		120W 100V line
Operating Voltage		230~240V ac
Current (Load / Standby)		2.2A / 0.4A
Input channel		6 : 4 Mic phone jack, 2 line selectable (RCA)
Input phantom power		Mic 1 : 12V DC
Input Sensitivity / impedance	Mic	2.45mV / 600 Ohm balanced
	Line	245 mV / 30K Ohm unbalanced
	RCA	495mV unbalanced
Tone controls		Bass (150Hz) ; Treble (10KHz) +-3dB
Outputs		4 Ohm, 100V line
Frequency response		200~18KHz
Protections		Thermal, short circuit, AC and DC fuse
Indicators		AC mains, clip, audio input level
Cooling system		Convection
Dimensions (WxHxD)		424 x 88 x 180 mm
Weight		7.8 kg
