

智能爆米花机

ENTIRELY AUTOMATICAL POPCORN MACHINE

产品特点

MACHINE FEATURES

行业竞争激烈，如何最大程度的缩小成本，成了这些厂家的首要问题。面对客户需求，隆泽人继续努力，潜心研究。最终，智能爆米花机器人应运而生。PLC软件编程、西门子触摸屏、计时报警器.....各种先进设备集一身，使得爆米花机更加自动化。根据自己的工艺，包括时间、温度、搅拌速度编程，一键即可完成生产和出料。

Because of intense industry competition, how to reduce cost to a great extent has become the chief problem of manufacturers. In the face of customer demand, LONGZE people continue to work hard and concentrate on studies. In the end, the intelligent popcorn robot arises at the historic moment. PLC software programming, Siemens touch screen, timing alarm...all kinds of advanced equipment make the popcorn machine more automated. According to its own process software programming of time, temperature and stirring speed, All progresses of production can be completed by a button till discharging.
