THE WORLD'S SPRAY GUN EXPERT IN CHINA

**VOYLET® WAGEMA®**  
**Muzi® Innomeliior®**

# Milestones

1984

Established a small factory with 25 workers to manufacture various metal parts.

1992

Started to produce complete spray guns.

1995

Founded Ningbo Lis Industrial Co., Ltd.

First brand "Muzi" was registered.

1997

Started to export spray guns to overseas.

1999

2000

Accredited with ISO9001.

2001

Second brand "Voylet" was registered.

2004

Moved to the new location with total floor area exceeding 40,000 square meters.

2006

Annual export reached 25 million US Dollars.

2006

Expanded the capacity to 14 production lines and 400 employees.

2010

2011

Accredited with ISO14001. Annual turnover reached 40 million US Dollars.

2014

Registered two new brands "PNTgreen" & "Innomelior".

2015

Automation lathes use manipulator.

2016

## MISSION:

By continuous innovative design, high-quality products and services, creating utmost value to global customers, the company aims at servicing the whole world in paint application industry and being a responsible enterprise to investors, customers, employees, suppliers and the society.

## VISION:

Focused on painting industry, the company strives to fulfill world-wide and domestic painting needs by providing professional and high-quality products, services and solutions.

## CORE VALUES

Teamwork Honesty quality Innovation

Founded in 1984;  
Floor Area 400,000 square feet;  
480 employees;

Capacity:10,000 guns per day;  
Certificatos:

# LS230

+ This style of spray gun is better for the environment and the long spray Pattern could improve work efficiency and save paint.

- Fluid nozzle(mm): 1.3/1.7/2.0
- Spray length: 230mm
- Air pressure:43 PSI
- Capacity of cup: 600ml
- Feed type: Gravity

- Fluid Nozzle: 1.3,1.7,2.0
- Air Pressure: 43PSI
- Feed Type: Gravity
- Capacity Of Cup: 600ml

# LS101

The improved design with side-mounted cup, high-transfer efficiency control and superior atomization. New air cap design with increased pattern stability improves atomization.

- LS101G: gravity type
- LS101S: Suction type
- LS101P: pressure type

- 1 Fluid nozzle(mm): 1.5
- 2 Spray length: 180mm
- 3 Air pressure:60 PSI
- 4 Capacity of cup: 400ml for gravity type  
750ml for suction type

# AFRL90

NEW

The filter /regulator combines a general purpose filter with a pressure regulator in one compact unit. The filter is designed to remove most liquid and solid particles from the air supply. The self-relieving pressure regulator is used to adjust the outlet pressure between 0-140 PSI.

- Pressure Rang: 10-120 PSI
- Max pressure: 140 PSI
- Air inlet/outlet: G1/4", G3/8" or G1/2"

## Mini6

NEW

- Improved atomizing performance
- A change in the grip shape gives a better touch.
- Beautiful shape give a better feel.

# IDEAL FOR HIGH-END AUTOMOTIVE FINISHING & HIGH-QUALITY WOODWORKING

S355

- The only No-Need-to-Replace nozzle worldwide: Patent Pending
- the paint needle seal resulting in savings in terms of time and money.
- All control elements can be easily operated even when wearing protective gloves
- World-class atomization
- Superior durability, reduce cost of use
- Forged aluminium body, fine polished and anodized
- Comfortable spring force, ergonomic design: Patent Design
- Passed sophisticated performance test, life test and field test
- Equipped with unique foldable stand (S35G only): Patent Design

The only  
No-Need-to-Replace  
nozzle worldwide:

# HVLP SPRAY GUNS

**LS-30**

## Applications

- Plastic Coating
- Automotive Coating
- Metal Coating
- Woodwork Coating

- the thread of fluid screw is perfectly suitable for cup, without seal and still couldn't leak.
- Forged aluminium body, fine polished and anodized
- The robust air cap is made of chrome-plated brass, while paint needle and fluid tip are manufactured from tempered stainless steel.
- All control elements can be easily operated
- 360°swivel joint, avoid hose twisting and relieve your wrist
- Improved atomizing performance
