DINTEK ezi-TOOL180 - Vertical Tool

The DINTEK ezi-TOOL180™ system is an all-in-one punch down and wire trim process, design to assure even connections, better performance and faster fit off times. The ezi-TOOL180™ is for use with 180degree Cat5e, Cat6 and Cat6A modular keystone jacks

Applications

- Premise wiring
- Cable assemblies
- For use in DINTEK Cat6A, Cat6 or Cat5e Installations
- Standardize connections on IDC

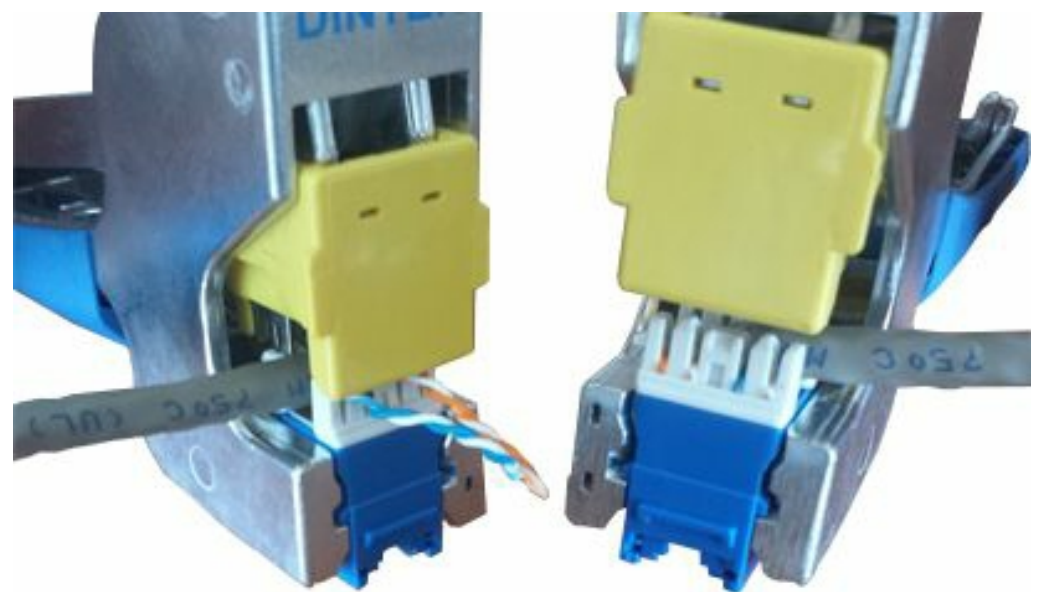

Features

- Vertical and Horizontal Jack versions available
- All-in-one Punch down of 8 wires
- Even wire trim process
- Maintains gas tight IDC connections
- Minimizes return loss & cross talk
- Multi use Keystones, can be used in Ezi-Tool and also standard punch down tool

Benefits

- Maintains gas tight IDC connections
- Insertion Loss reduction
- Removes risk of insulation and/or keystone jack damage
- Multi use ezi-JACKS, can be used in ezi-TOOL and also standard punch down tool
- Wires pushed down over IDC instead of impact 110 style
- Removal of impacting to terminate improves return loss and cross-talk at termination points
- Less termination failures and better overall bandwidth for customer
