

CommScope Category 6 cable family part numbers 1427254, 1427200, and 1427215 to be changed to the new CommScope NETCONNECT® CS31 series

[APAC Region]

We are announcing the replacement of the Category 6 cable family part numbers 1427254, 1427200, and 1427215 with the new CommScope NETCONNECT® CS31 series cables. This change will improve our cable offerings and the CS31 series cables will provide cable performance on par or above the cables they replace.

The new CS31 family of cables are part of the CommScope NETCONNECT® copper cable portfolio and will serve as direct replacements for AMP NETCONNECT Category 6 U/UTP cables in APAC.

The CS31 series will be available for order starting September 15, 2017. Open and upcoming orders for the 1427254, 1427200, and 1427215 families should be immediately converted to the CS31 series if possible. The last buy date for the 1427254, 1427200, and 1427215 families is November 30, 2017.
