

BENETECH GM3655 NON CONTACT INFRARED BODY THERMOMETER

**7 seconds
Automatic shutdown**

measured data are automatically heldThe instrument shuts down automatically within 7seconds if there is no further operation

BENETECH
GM3655

32°C~42°C (89.6°F~107.6°F)
body thermometer

Measurement hole

Trigger

Finger slot of battery door

Features:

1. Accurate measurement: The product adopts the optical principle, the measurement accuracy is controlled at ± 0.3 °C, and the accuracy is high.
2. Simple operation: The product supports one-button temperature measurement. The thermometer will quickly measure temperature when the trigger is pressed.
3. Convenient reading: The product adopts digital display reading mode and supports backlight design. It can switch between Fahrenheit and Celsius measurement with one click, which is very convenient.

Description:

The product is small and portable, beautiful and exquisite, suitable for measuring human body temperature.

Specifications:

Color: white

Measuring temperature range: 32-42 ° C (89.6-107.6 ° F)

Measurement accuracy: ± 0.3 ° C (± 32.54 ° F)

Response time: 500ms

Response wavelength: 5-14um

Environmental working temperature: 10 °C -35 °C

Power: 2 * 1.5V AAA (not included)

Battery life: 12 hours

Measuring distance: 2-5cm

Package Included:

1 * infrared thermometer

1 * Manual

Notes:

1. Due to the difference between different monitors, the picture may not reflect the actual color of the item. We guarantee the style is the same as shown in the pictures.
2. Please allow slight dimension difference due to different manual measurement.
