

SuperFast Thermanen[®] 4

digital thermometer

- patented, automatic 360° rotational display
- FREE traceable certificate of calibration
- reaches temperature in just 3 seconds
- waterproof to IP66/67

The SuperFast Thermanen is the UK's number one selling food thermometer measuring temperature over the range of -49.9 to 299.9 °C. Used by hundreds of thousands of people worldwide, it offers a combination of speed, accuracy and convenience of use.

Using advanced technology the Thermanen 4 includes a number of innovative features. The patented 360° self-rotating display can be used in any position, in either hand. The unit incorporates an intelligent backlit display sensing light levels, automatically turning the backlight on/off in varying light conditions. The motion-sensing sleep mode with user changeable time delay, automatically turns the Thermanen 4 on/off when set down or picked up, maximising battery life.

The casing is washable and includes 'Biomaster' additive that reduces bacterial growth and the ergonomic rubber seal minimises the risk of the ingress of water, dust or food. As well as being waterproof to IP66/67, it is still 'probably' the fastest reading contact thermometer on the market today. The true temperature of a product can be tested in just three seconds. The Thermanen 4 incorporates a reduced tip, stainless steel, penetration probe (Ø3.3 x 110 mm) that conveniently folds back through 180° into the side of the instrument when not in use.

The Thermanen 4 is powered by a single AAA battery with a life expectancy of 3000 hours in normal use, without the backlight. Both low battery (icon) and open circuit indication are displayed, when applicable. Each Thermanen 4 is supplied with a FREE traceable certificate of calibration.
