NO. 1 CERAMIC TABLEWARE IN MALAYSIA

MATERIAL OF MUG - There are 3 main materials that are used to manufacture mugs.

i) STONEWARE

Stoneware are usually used to make coloured mugs. It is a little heavier and thicker but can keep the coffee warm for a longer time. It has a better quality than earthenware or ironstone which is not as durable.

ii) PORCELAIN

Porcelain are usually white and glossy. Porcelain mugs are thinner than a stoneware products but is more durable because of its low water absorption. The surface is smooth and glass-like, creating a hard, extra durable surface. The pieces are microwavable and dishwasher safe, resistant to breakage and chipping.

SAFETY - All our mugs are dishwasher, microwave and food safe. The mugs are made of lead free clay and glaze while the imprints are FDA approved.

COLOUR - White is the most popular colour as any imprints of logo/messages can be seen clearly. Drinks appear in a white mug will look much more appealing. Most promotions has a theme to follow and coloured mugs will come in handy to match logo or corporate colour; like a eco friendly campaign will use a green coloured mug and Batman will use a black mug etc.

iii) BONE CHINA

Bone China is the highest grade in ceramic mugs. Thin walled with attractive warm body colour that can be appreciated by anyone. Our bone china mugs does not contain any natural animal bones because of the high cost. Our bone china is made from synthetic phosphates chemical that substitute the natural animal bones. The synthetic phosphates give a translucency to the mugs and with the extra smooth surface, bone china mugs exhibit a delicate, refined look

ACCESSORIES - Some mugs can be fitted with coasters and covers and also tea strainers. Coasters and covers are most popular because they can keep your drinks clean. Mugs with tea strainers are given to Chinese tea drinkers.

Depending on your budget and designs, mugs are the best tools for building brands and a great gift for anybody. Take a little time and discuss with our mug consultant and we are certain that your advertising campaign will be a successful one.

Applicant : MYMUG SDN. BHD.
No 36, Jalan 5/22a, Off Batu 812
Jalan Kepong, 52100 Kuala Lumpur
Product : Mug
Reference standard / Method of test : 1) Malaysian Food Act 1983 (Act 291) and Regulations (as at January 2014)

2) MS ISO 5486-1 : 2003 Ceramic Ware, Glass Ceramic Ware and Glass Dinnerware In Contact With Food – Release of Lead And Cadmium

Description of sample : Received one (1) sample of Mug for testing. The sample was identified as
Product Name : MYMUG PORCELAIN MUG
Brand : MYMUG Malaysia

Date received of Complete Application : 4th February 2016

Job No. : J20161400100

Description of Test Results : The test results of the submitted test sample are described in Page 2 of this test report.

Test Results

Product Name : Mug
Product Name : MYMUG PORCELAIN MUG
Brand : MYMUG Malaysia

No.	Type of Tests	Requirements based on Malaysian Food Act 1983 (Act 291) and Regulation (as at January 2014) (Small Hollow-ware)	Test Results	Remarks
1.	Cadmium (Cd), mg/l	0.20 maximum	Less than 0.002 ⁷³	Pass
2.	Lead (Pb), mg/l	2.0 maximum	Less than 0.02 ⁷³	Pass

Note : 1) *Minimum Schedule (Regulation 23) at amendment L6 in January 2014
2) Refer to section 402

Issued date : 12th February 2016

HOW TO CHOOSE PROMOTIONAL MUG

(Products with logos are for reference only)

A significant portion of the populations drinks coffee on a regular basis while many others drink tea. Averagely a person consumes 3.5 times of coffee/tea or water a day which means that your logo/message is seen at least 900 times a year. No office desk is complete without a mug and mug is a gift that is sure to be used and the recipient will have to thank you for every cup of he drinks. Mugs can convey a lot of meanings and information depending on the perspective you want to lend it.

SHAPE OF MUG - Mugs comes in various shapes. It could be straight, round, triangle or barrel. You should choose one that matches your promotion theme and also to take advantage of its unique shape so that your mug will stand out whether in the kitchen or office.

SIZE - Size of a coffee mug is important. Depending on the information you need the mug to carry, you can choose a 6oz mug to a 1.5 litre giant mug. Importantly, whatever informations on the mug must be readable and neatly laid out so that your message can have the necessary exposure.

SHAPE OF HANDLE - Handle is a always a major part of the mug. The shape of the handle usually matches the shape of the mug. Choose a handle that is comfortable to your fingers. Some of our mug comes with a thumb grip for better handling when the mug is filled.
