

COPPER ALLOY ELECTRODE

POWERWELD Cu 112

AWS A5.6 : ECuSn-C
For Welding Bronze & Brass

Diameter	Standard Package	Standard Length	Standard Pallet	List Price	Net Price
2.6mm	5kg/20kg	350mm	1000kg		
3.2mm	5kg/20kg	350mm	1000kg		

Characteristics

Recommended for repairing wrought bronze (CuSn), for surfacing on brass, steels and cast iron.

Applications

Construction of equipment for the Chemical industry and Petrochemical industry, Naval constructions and installations for sea water desalination, Repair works.

Base Materials:

UNS	DIN	Material N°
C50700	CuSn2	2.1010
C51100	CuSn4	2.1016
C51900	CuSn6	2.1020
C52100	CuSn8	2.1030
	CuSn6Zn	2.1080
C52400	G-CuSn10	2.1050
