

# **ARC 200GE II**

## **Excellent, Professional, Reliable and Rugged**

The ARC 200GE II use new generation inverter MOSFET technology, and the high efficient performance brings you deep impression. Even beginners can be easy to operate these machine.

### **Features description**

- Built-in Microprocessor.
- Use the latest high grade IGBT inverter technology.
- Wide range input voltage: 1P 220V± 15%.
- Can be used with matching generator.
- VRD adjustable by press the stand\_by button for about 5S.
- Anti-sticking, Arc force and Hot start function built-in, providing excellent experience in welding.
- Fan as needed function, reduces noise and dust inside the machine.
- Non-stop welding for 2.5mm and 3.2mm diameter electrode.
- Intelligent protection for over-loading, over-voltage and over-heating.
- Widely used in acid and basic electrode welding.
- Compact and portable (3.4Kg) with adjustable shoulder strap and handle.
- Suitable for maintenance, installation, etc. indoor and outdoor requirements.
