

# Power MIG300GS

## Integrated, Efficient, Premium Welding Solution

MIG 300GN and MIG 300GS provide more professional choices for factory. Select the MIG 300GN for factory projects and repair of sheet metal or autobody work. MIG 300GS covers all the functionality of MIG 300GN, and it can be of additional step up to the 230 volt, for farm, shop and light fabrication.

- IGBT technology, the core adopts advanced IGBT inverter device.
- Infinite Voltage Control with optimized starting performance.
- Inductance Control for arc stability and spatter control.
- Digital Meters - Voltage and Amperage; Preview and Hold capability.
- Trigger Control - 4T (Latch) eliminates operator fatigue.
- Quick Change Polarity - easing and quickly change polarity (no tools required) from the front of the power source.
- Thermal overload protection helps prevent machine damage.
- Easy to move: the gas cylinders with the power supply is convenient to move.
