

Electrodes for Mild and High Strength Steels

PRODUCT M&R	DESCRIPTIONS	TECHNICAL DETAILS	Ømm	APPLICATIONS
210	<p>FOR WELDING LOW ALLOY STEELS</p> <p>Universal rutile type electrode to weld in all positions including vertical down.</p> <p>Wide range of applications on all types of low carbon-steels. For general use in construction welding, galvanise plate, tubular connections, pipe welding, boilers, ducts, tanks, air con units, machine guards, sheet metal.</p>	<p>Rm (MPa): 580</p> <p>Re (MPa): 400</p> <p>A5 (%): 22</p>	<p>2.0</p> <p>2.6</p> <p>3.2</p> <p>4.0</p>
