

Electrode for Hardfacing

PRODUCT M&R	DESCRIPTIONS	TECHNICAL DETAILS	Ømm	APPLICATIONS
720	<p>Special hard facing electrode with high- speed steel characteristics. Crack resistant deposit, high temperature oxidation resistance, excellent cutting properties, high hardness.</p> <p>Weld Deposit finished by grinding. Use for tool and die repair, cutting tools knives shear blades, press tools etc.</p>	<p>Hardness: ~ 60-63 HRC</p> <p>Wels Metal Analyse; C, Cr, Mo, W, V (martensitic)</p>	<p>2.0 2.6 3.2</p>
