Oxygen	(O <sub>2</sub> )	500	ppm	MAX
Moisture	(H <sub>2</sub> O)	100	ppm	MAX

Date of Issue: 8-May-12

## NOTES:

*Linde Malaysia Sdn. Bhd. ("Company") warrants that the products conform to the specification as described in this specification sheet. All other warranties are excluded unless such exclusion is prevented by law. Values expressed in "ppm" stands for "parts per million volume" and any statement of percentage for product purities for Nitrogen, Helium or Argon are based on reverse deduction using the balance of the measurable impurities. For applicable products issued with a Certificate of Conformity (CoC) or other equivalent documents shall be conclusive evidence of quality of goods. The Company shall conduct product testing to ensure that all products are within the specification before a CoC is issued. If Customer has any special requirements with regard to the CoC or for product testing or analysis, then the cost associated with such special requirements shall be borne by the Customer. Specifications of traded items are based on supply source. The Company reserves the right to amend the details of the product specification without prior notice*
