The clinics are equipped with state of the art equipments and facilities in order to provide high standard of dental care. We have **digitalized intra-oral and extra-oral** (Cephalometric, Panorama, 3D Cone Beam Computerized Tomography (3D CBCT) **X-ray system** to help in more accurate diagnosis and treatment. We are among the first clinic in Johor with **laughing gas facility** for the **anxious patients**. We have air-abrasion (**no-drill filling**) and **computerized “painless” injection system** to **reduce fear and discomfort** of the patients. In addition, we have our attached **dental laboratory** and skillful technicians to produces plastic **denture, full porcelain (alumina or zirconia) veneers, crowns and bridges**.

We are “**paperless**” clinics with custom made **Practice Management Software** developed since 1994. All the patients’ records and radiographs are in **digital format** so the the information can be saved and retrieved in efficiently and accurately. With the built in **Customer Relation Management** software, we are able to trace and follow-up patients that might have difficulties or complications after dental treatment, so that follow-up can be done to ensure their **well being** and ultimately, their **satisfaction**.

WELCOME TO U DENTAL

We strive to offer **high quality dental care** at an **affordable price**. We try hard to maximize the **value** for money of our patients. Our **staff** are well trained and all of us have to follow a set of well-proven standard **operating procedures** to ensure patient safety and **optimal treatment outcome**. We pay great **attention to details**, and that minute, unseen, **heart-felt quality** is becoming our brand positioning.

Dental treatment is **personal**. We recognize that no two patients are alike, and furthermore, no two teeth in the same patient are alike. We **listen** to the patients carefully to understand their **concern**, their **fear** and what they really **want** For more complex treatments, we will explain the **advantages and disadvantages** of each procedures, the **treatment options and alternatives**. We printed our own treatments brochures to be distributed to the patients that might need the particular treatment. Hence, patient is provided with necessary **information** and guided to make **informed decision and consent** to the best of their welfare, before embarking on a treatment plan.
