

DAC-60

Standalone Access Controller

DAC-60 standalone access controller is a cost-effective solution for indoor systems, where user access verification thru only Card, Card&PIN, or PIN-only is required. This durable model can be easily programmed with up to 1,500 users for a single door. DAC-60 offers a user-friendly set up menu, simplifying deployment, configuration and operation. DAC-60 is tamper-proof because it can connect a SL5 door control module.
