ORBITAL

Welding System

HUAHENG WELDING CO., LTD.

● Spring balancer

Brief Introduction

Spring balancer is specially designed for tube to tube welding head, controlling welding head position by balance principle. It could make it fast to find tube center and weld stable by using with mandrel.

Support equipment: TP060 Tube to Tube-Sheet Welding Head.

Suitable for large tube to tube-sheet welding.

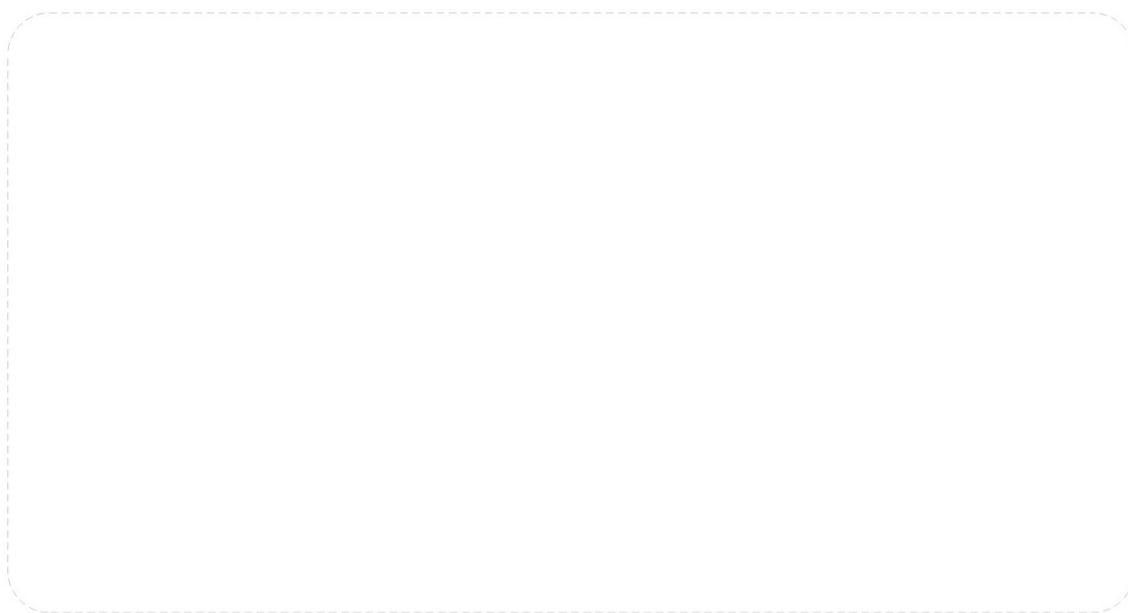

Features

- Convenient for moving;
- Maximum loading is adjustable to achieve best status.

Technical Specification

Loading (kg)	9-15
Traverse (mm)	2000
Weight (kg)	3.8
