... *“Improving daily cycle time and cost effectiveness is our forte.”*

## MISSION

### SYABAS ..... MANAGEMENT FOR PROFITABLE GROWTH

We strive to keep our premium position in the trucking and transportation industry. We must therefore continually improve our skills and working methods, so as to outperform our best competitors. To achieve this, our leadership is focused on common values, principles and working methods.

Our ambition is to supply the region's most demanding customers with the most competitive and optimal solutions for their transportation needs. Our trucking services shall fulfill our customer expectations well.

## REPAIRING AND MAINTENACE SERVICE

Syabas Auto Service Sdn Bhd offers a wide range of truck repair and maintenance services that can be tailored to suit specific service, maintenance and repair requirements. Time is money, and less time a vehicle spends in workshop, the more money it earns. We pose the special tool to diagnose the vehicle that considerably cuts downtime in workshop. This allows our customers to schedule precisely planned breaks at the most optimum times to suit the transport planning. Syabas's technical leadership goes beyond excellence in design and manufacturing.

Our quality assured repair and maintenance procedures are intended to make things simple for you and maximize your uptime – the time your trucks can actually spend on the road, contributing to profitability of your business.

We are committed to providing efficient and cost effective-services with added value to our customers business.
