

Details : HBS-3000B digital Brinell hardness tester is newly developed, the operation process and test results of the data can be displayed in the LTD touch screen, test results of the data can be output through the printer. This machine is suitable for all kinds of production and processing enterprises, universities, research machinery laboratory.

Specification

Measurement Range	8-650HBW
Test Force	1.839、2.452、7.355、9.807、14.71、29.42KN (187.5、250、500、750、1000、3000KGF)
Max Height	280mm
Distance from Pressure Head to Machine	150mm
Power Supply	AC 220V
Data output	Built-in printer
Dimension	230*850*920mm
Weight	About 210KG
