

For accurate machinery alignment

CSE Machinery Shims

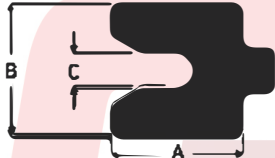

SS series

New generation of shaft alignment tool has turned up the entire alignment process. Introducing a new electronic measuring module of shaft alignment using a high definition of SS Shim, reference bar.

- Precut Stainless Steel Shim.
- Easy to use and completely flat.
- Accuracy and repeatability.
- Have safety tabs to grab.
- Rounded edge without burrs.
- Common machine feet size in 4 different thickness.

Technical data	A	B	C	Thickness
Designation	mm	mm	mm	mm
SS 75-010	75	75	21	0.10
SS 75-025	75	75	21	0.25
SS 75-050	75	75	21	0.50
SS 75-100	75	75	21	1.00

Thickness(mm)	0.10	0.25	0.50	1.00
Size(mm) 75x75				
SS 75/PACK (S)	25	25	20	20
SS 75/PACK (M)	50	50	40	40
SS 75/PACK (L)	80	80	60	60
