## Tube Storage

Maximize storage capacity with a variety of reliable sample storage options

## Low-Temp PCR ${ }^{\oplus}$ Rack: 96-Well

Slide, set, work \& store PCR ${ }^{\oplus}$ samples
The $\mathrm{PCR}^{\ominus}$ rack base is made from robust ABS construction, and the lid is made from polycarbonate which helps keep samples safe so you don't have to spend extra money and time on expensive retesting.

The $\mathrm{PCR}^{\ominus}$ storage rack is versatile; it can be used on a bench top or for freezer storage. The compact footprint is stackable, which helps save valuable space in the lab. The PCR ${ }^{\ominus}$ storage rack is offered in multiple colors for coding options.

- Lid is ambidextrous and can be switched to accommodate left or right hand orientation
- Detachable lid
- Holds 0.2 mL tubes, individual or strip
- Store down to $-80^{\circ} \mathrm{C}$. Must use tubes capable of being stored at the required temperature of the user
- Not recommended for autoclaving.
- US Patent Pending, Community Design No: 004101756-0001-0002

## PCR ${ }^{\circledR}$ Tube Racks 96 -Well

Perfect for pre- or post-PCR ${ }^{\circledR}$ sampling

- Made of polypropylene

Accommodates individual tubes or strips

- Removable hinged lid lies flat
- Alphanumeric identification for quick location and retrieval of tubes
- Autoclavable

1.5 mL Tubes

12 wells on each side

## PCR ${ }^{\circledR}$ Tube Racks Reversible

Removable hinged lid fits both sides

- Made of polypropylene
- $P^{(1)}$ side of the rack holds 8 or $12 \times 0.2 \mathrm{~mL}$ tube strips or individual tubes
- Reverse side holds 0.5 mL tubes
- Both sides of the rack have 12 wells for 1.5 mL tubes
- Autoclavable

## TracRack ${ }^{\circledR}$ Tube Rack

Take what you need and store the rest
Made of polypropylene
Eight segments per box
$1.5-2.0 \mathrm{~mL}$ cryo and micro-centrifuge tubes (64 tubes) Wells have a center depression to stabilize conical tubes and a cryogenic vial lock for one-handed cap removal Printed Index Letters for quick sample ID and retrieval Autoclavable

## TracRack ${ }^{\circledR}$ Microtube Rack

- Made of polypropylene
- Eight reversible segments per box
$64 \times 0.5 \mathrm{~mL}$ tubes, $96 \times 0.2 \mathrm{~mL}$
microtubes, or a combination of both
Printed Index Letters for quick sample ID and retrieval
- Autoclavable

## TracRack ${ }^{\circledR}$ Outer Box

- Made from thin film polypropylene material
- Moisture and mold resistant
- Removable segments allow outer shell to be used for storage of other small laboratory products 2 in. ( 5.3 cm ) boxes fit in standard freezer racks Store down to $-80^{\circ} \mathrm{C}$. Must use tubes capable of being stored at the required temperature of the user - Not recommended for autoclaving.

## Work 2 Store ${ }^{\circledR}$ Expanding Storage Box <br> Single rack, double function

Reduce sample handling time and the need for several racks when working with samples for cold temperature storage. The opening and closing mechanism allows the rack to expand, creating needed room for sample manipulation. When done, simply collapse the rack back to its compact form and it's ready for the freezer.

- Sides made from polycarbonate, Tube holders made of polypropylene
- Expanding wells have a center depression to stabilize conical tubes and a cryogenic vial lock for one handed cap removal
- Holds $64 \times 1.5 / 2.0 \mathrm{~mL}$ cryo and/or microtubes
- Instantly creates more working space
- Helps reduce potential cross contamination
- Stops opened microfuge lids from interfering with other wells
- Stackable
- Alphanumeric identification for quick location and retrieval of tubes
- Clear lid locks the rack together for safe handling and transportation
- Will fit into standard 2" (53 mm) freezer racking
- Temperature range -80 to $121^{\circ} \mathrm{C}$. Must use tubes capable of being stored at the required temperature of the user
- Autoclavable

## Reversible Tube Racks 96-Well

Easy-to-grasp tabs for sample handling and storage

- 96 wells for 0.5 mL tubes on
one side and 96 wells for 1.5/2.0
mL tubes on reverse side
- Made of polypropylene
- Alphanumeric identification for quick location and retrieval of tubes
- Wells are arranged in standard $8 \times 12$ array
- Translucent lid fits securely and is tall enough to store most screwtop microcentrifuge tubes
- Stackable, saves valuable space in the lab
- Autoclavable

| Item No. | Color |  | Item No. | Color |  |

Alphanumeric Identification

Microtube storage boxes are:
Made from polypropylene
Designed for quick visual identification with uniform wells and location identification
Tube capacity is indicated on the outside of the box
Translucent vibrant colors with a frosted labeling area

Debossed with a distinctive wave design
Stackable, saves valuable space in the lab
Store down to $-80^{\circ} \mathrm{C}$.
Must use tubes capable of being stored at the required temperature of the user Autoclavable

## 50-Well Microtube Storage Boxes

## Foam Tube Racks

## High storage, minimal footprint

- Two-piece racks are constructed of expanded polystyrene (EPS) foam Lightweight microtube racks are ideal for long-term studies or tube storage Extra spacing between wells allows for easy gripping with fingertips
- Racks stack securely with nesting features on lid and base
- Store down to temperatures of $-80^{\circ} \mathrm{C}$. Must use tubes capable
of being stored at the required temperature of the user
- Not recommended for autoclaving.

## Transformable Cube Tube Rack

For storage of large samples and $15 \& 50 \mathrm{~mL}$ tubes

- Polypropylene construction
- 2 snap-in inserts hold 15 and 50 mL tubes
- When not in use, inserts can be conveniently stored in the lid
- Use without inserts for larger sized product storage
- Clear keyed lid, translucent sides
- Locate tubes easily with numeric wells
- Store down to temperatures of $-80^{\circ} \mathrm{C}$. Must use tubes capable of being stored at the required temperature of the user
- Autoclavable

## Arctic Squares ${ }^{\oplus}$ Polycarbonate Cryostorage Boxes

Safely store cryogenic vials
Our polycarbonate boxes are designed with unique features to help orient, identify and access vials with ease.

- Alphanumeric labeling on lid or base (depending on the unit) for quick location and retrieval of tubes
- Liquid nitrogen vent and drainage holes
- Magnet on top of forceps enables easy storing on metal surfaces
Stackable, saves valuable space in the lab
- Store down to temperatures of $-196^{\circ} \mathrm{C}$ Must use tubes capable of being stored at the required temperature of the user
- Autoclavable
- US Patent No.: D529622
- EP Registered Design No.: 005514290001, 00551429-0002, 00551429-0003
