

TurbiTechw² LS

Suspended Solids and Turbidity Sensor

PRODUCT DATASHEET

APPLICATIONS

Final Effluent Turbidity
Final Effluent Solids
Inlet Solids
Primary Settled Sewage
Surface Water

MEASUREMENT PRINCIPAL

90° Light Scatter Wavelength 860nm ISO 7027 Compliant

FEATURES

Fully automatic Self Cleaning Flexible Mounting System Large Optical Surface

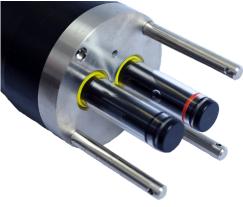

BENEFITS

Automated Aeration Control

Low Cost of Ownership

COMPATIBLE MONITOR

7300w² Monitor

The TurbiTechw² LS Sensor is designed to monitor the levels of suspended solids or turbidity typically found in final effluent from municipal and industrial wastewater treatment plants. It is also great at monitoring solids in the intake to both effluent and drinking water treatment processes.

Monitoring of these key parameters requires sensors that are reliable accurate, the TurbiTechw² LS meets this requirement perfectly. The large optical surfaces and sample volume ensure that the information provided by the sensor is both representative of the process and tolerant of fouling. In addition, the sensor incorporates a self cleaning mechanism that ensures that optical surfaces are kept clean at all times, the cleaning system is designed to avoid problems with ragging and does not smear the optical system.

The cleaning process takes only 90 seconds, which means that the sensor is available for 99.5% of the time with a 6 hour cleaning cycle.

TurbiTechw² LS

Suspended Solids and Turbidity Sensor

PRODUCT SPECIFICATION

Order Codes Part No Description

223510 TurbiTechw² LS Sensor (Range: 0-500 FTU, Cable Length: 10 metres, Nitrile Seals)

226447 TurbiTechw² LS Sensor (Range: 0-100 FTU, Cable Length: 10 metres, Nitrile Seals)

225455 TurbiTechw² LS Sensor (Range: 0-1000 FTU, Cable Length: 10 metres, Nitrile Seals)

Publication No: 223510DS-Iss11

The company reserves the right to alter the specification without prior notice. E&OE

Installation Type Mounting Shaft Handrail Attachment 470 x Ø80 mm

2.2kg (inc 10 metres of cable)

Black Acetal Co-Polymer,

Intergral Cable Gland

Black Acetal, 316 Stainless Steel, Glass, Polyurethane,

4 core, 2 Twisted Pair, 9 mm O/D Polyurethane,

10 metres, 100 metres maximum

Automatic Self Cleaning

Seal Service every 3500 cleans (application dependent)

0 to +50°C

12 VDC from Monitor ModTechw², RS485

±5% of measured value or ±0.5 FTU whichever is greater

0.5 FTU 0 - 10 FTU

0-500 FTU

±5% of measured value or ±2.5 FTU whichever is greater

2.5 FTU

0 - 50 FTU

0-1,000 FTU

±5% of measured value or ±5 FTU whichever is greater

0 - 100 FTU

90° Light Scatter

ISO 7027 Compliant

860nm Infrared

1Bar or 14.5 psi

Not affected by flowrate, avoid deadspots and extreme turbulence

User Selectable mg/l, g/l, ppm, %SS, FTU, NTU

The actual measuring range will depend on nature of sample being

monitored.

1.0 to 3 metres in 1 metre increments
