

ANG180 Digital Angle Gauge

Detects the degree of offset from true level

Features:

- Single and dual axis calibration
- User programmable target angle with audible alarm
- Zero button sets a user reference plane other than true horizontal level
- Magnetic base attaches to pipes, table saws, and other ferromagnetic surfaces
- V-groove on the top and bottom surface easily aligns to the axis of conduit and pipes
- Functions as a bullseye level when laid flat
- Hold button freezes the reading on the display
- Auto off conserves battery life
- Onscreen battery icon indicates when the batteries need replacing
- Includes (2) AA batteries
- 1 year warranty

Applications:

Finds and sets angles, check relative angles, works as a standard or bullseye level

Specifications

Measurement Range	0 to 90°; 0 to 180°
Accuracy: Vertical/Horizontal	±0.2° (when measuring using the Magnetic Base)
Accuracy: Bullseye	±0.5°(when measuring using the back surface)
Drop Proof	6.6ft (2m)
Water Resistant	(IP42)
Power	(2) AA Batteries
Dimensions	4.8 x 2.4 x 1.4" (121 x 62 x 35mm)
Weight	6.4oz (181g)
