

TG2-150

Description

The circular cutter portable flame cutting machine designed to cut square, rectangle, smooth edges providing two standard variations of cutting speed. The cutting machine is intended for cutting materials like steel plates and etc.

Features

- Excellent operability and lightless.
- Cutting operation can be started smoothly.
- Support various kinds of spare parts

Technical Specification

Power	: 220 V AC
Dimension	: 1190*335*800mm
Cutting thickness	: 6-100mm
Cutting speed	: 50-750mm/min
Diameter of circle cutting	: 20-600mm
Length of line cutting	: 1200mm
Max size of cutting square	: 500*500mm
Max size of cutting rectangle	: 400*900 mm 450*750mm
Weight	: 56.5 kg
