

MAX-3

Features

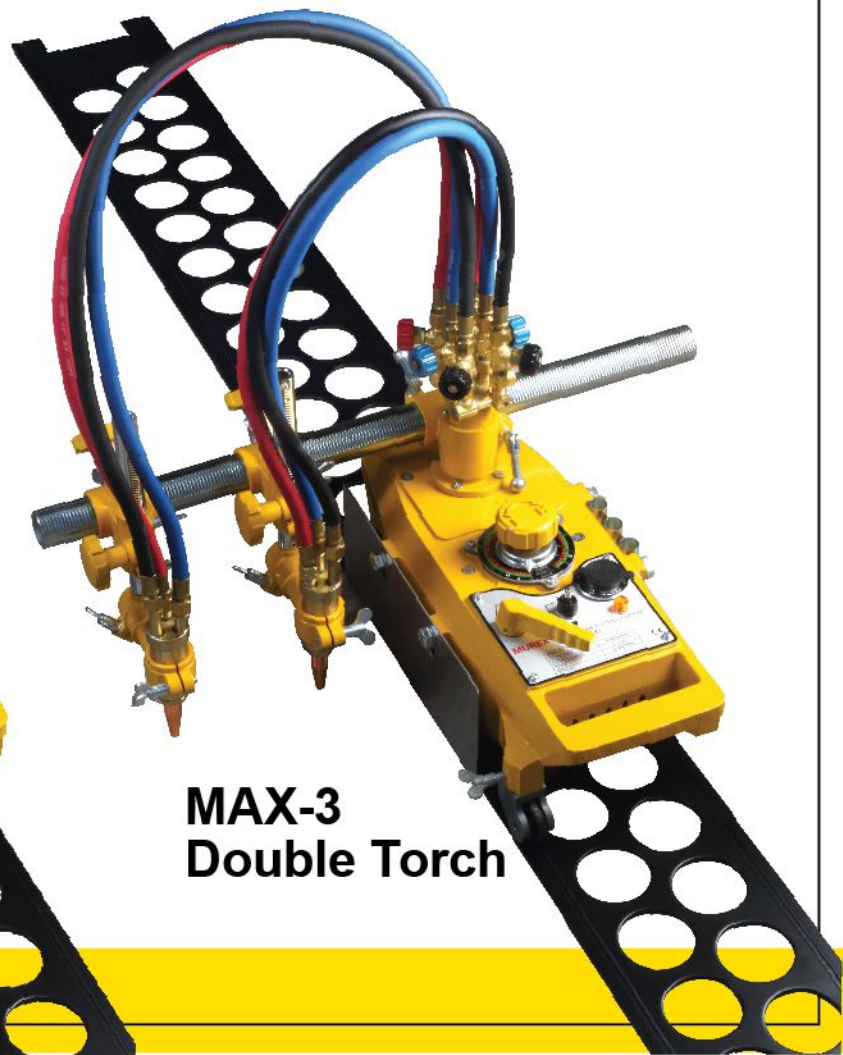

- Unique drive system - Allows infinite speed range adjustment using constant speed motor.
- Versatility and convertibility - All types of straight line, circle and bevel cutting.
- Quality cutting - Use Gazcut style taper seat type oxy-fuel cutting tips and torch with uniquely accurate, unequaled performance in cutting clean and sharp edges.
- Circle cutting - Adjustable radius bar for circle cutting.
- High speed mode - 240 ~ 2,400mm/min at 50cycle and or 300~3,000mm/min (12" ~118") at 60 cycle is available.

Technical Specification

Model No	: MAX-3
Power	: AC220V
Cutting Capacity	: 5 to 100mm
Bevels	: 0° to 45°
Straight Cuts	: 1.8m and multiples
Circle Cutting (Diameter)	: 40 to 2650mm
Cutting Speed	: 80 to 800mm/min (50HZ)
Torch	: Injector Type to suit Acetylene / LPG
Gas Connection (Fuel LH & Oxygen RH)	: 1/4 G; 9/16" etc
Gross Weight	: 11.5kg W / 1 torch 16kg W / 2 torches
Dimensions (mm)	: 440 X 205 X 215

**MAX-3
Single Torch**

**MAX-3
Double Torch**
