

Combo Roll Groovers

975 Roll Groover with Power Drive

975 COMBO ROLL GROOVER

The Model 975 Combo Roll Groover is two tools in one, and is the only one that has the same capacity for Schedule 10 and 40. Like other RIDGID® roll groovers, the 975 mounts on the RIDGID 300 Power Drive for machine-powered roll grooving jobs. It also designed to manually roll groove in-place pipe.

- **Auto Tracking & Depth Setting Gauge Means Easier Use** – The 975 Combo Groover includes new, patented auto tracking technology for significantly easier grooving. Whether you're doing machine-powered or manual grooving, the AutoTracking gauge keeps the pipe automatically engaged to the groover throughout the grooving process. The 975 also includes a permanently depth setting gauge for quicker, repeatable set-up.
- **Less Hand Force Required** – When manually roll grooving, the 975's 55% higher gear reduction means less hand force required versus competitive manual roll groovers. This is especially helpful for over-head roll grooving.
- **Durability And Portability** – A tough, ductile iron construction means the 975 can absorb jobsite abuse and provide accurate grooves time after time. A cast-in handle makes the 975 easily portable to and from the jobsite.

SPECIFICATIONS

- **Capacity**
 - 1 1/4" – 6" Schedule 10 and Schedule 40 steel, aluminum, and PVC pipe
 - 2 1/2" – 6" Schedule 10 stainless steel pipe
 - 1 1/4" – 2" Schedule 40 stainless steel pipe
 - 1 1/2" – 3" Schedule 80 PVC pipe
 - With roll change, 2" – 8" copper tube (Type K, L, M, and DWV)
- **Depth Adjustment** – Adjusting screw and integral, index depth gauge
- **Autotracking System** – Incorporated offset for pipe (rolls are slightly pitched to adjust)
- **Actuation** – Feed screw with 1/2" ratchet wrench (included), or any 15/16" hex wrench
- **Power Drive Mounting** – RIDGID 300 Power Drive 38/57 RPM (reverse direction only)

Power Roll Groovers

POWER-DRIVEN 916 ROLL GROOVER

The RIDGID® Model 916 Roll Groover is the most durable and efficient lightweight portable unit available. Built with a solid, durable cast-iron housing, it withstands heavy usage, yet is light enough for easy transportation. The 916 features a patented single stroke feed mechanism that allows for accurate operation quickly and effortlessly.

- Specifically designed for field service roll grooving applications.
- Quick and easy mount to RIDGID 300 Power Drive, 535 or 300 Compact Threading Machines.
- **Cam-type feed actuation** – translates into minimum operator effort to form roll grooves.
- Depth adjustment screw separate from feed mechanism allows for consistent groove depth.
- Lightweight for easy transport and storage.
- Integral feed handle is part of overall unit. No extra tools required.
- **Easy serviceability** – drive and groove rolls are easy to change.

SPECIFICATIONS

Power Roll Groovers

918 ROLL GROOVER

The RIDGID® Model 918 Hydraulic Roll Groover features a powerful 15-ton hydraulic ram in a compact, easy to transport unit. With one man set-up and operation, the 918 is the ideal groover for job site requirements. The 918 mounts quickly to RIDGID 300 power drive, 535, 1822, or 1224 Threading Machines. Designed to provide maximum efficiency, the 918 is capable of grooving up to 12" Schedule 10 and 8" Schedule 40 standard wall pipes.

- Compact lightweight design allows for easy transport.
- Extensive grooving capacity for a wide range of applications.
- Rugged, durable housing enables unit to withstand harsh use.
- Two-stage pump plus 15 ton ram permit quick and smooth operation.
- Quick easy set-up. Easy rollset changeout.
- Specifically designed groove and drive rolls product consistent, accurate grooves throughout the capacity range.

Power Roll Groovers

918-I ROLL GROOVER

The RIDGID® Model 918-I Roll Grooving Machine is capable of grooving 1" to 8" schedule 40 and 1" to 12" schedule 10 pipe faster than any roll grooving machine in its class. Powered by a ½ HP universal motor and heavy-duty transmission, it produces high quality grooves consistently and effortlessly. Comes standard with a rugged wheel stand built for mobility in the shop without compromising stability. The stand's tray is tough enough to support 200 lbs. Features a custom-designed, two-stage hydraulic pump that minimizes pipe flare, operator fatigue and hydraulic fluid leaks.

SPECIFICATIONS

Power Roll Groovers

920 ROLL GROOVER

The RIDGID® 920 Roll Groover takes grooving to a whole new level. With a capacity range of 2" - 24" diameter pipe, the 920 has the largest capacity of any RIDGID roll groover. It is also the largest non-stationary groover on the market. The 920 mounts to the RIDGID 300 Power Drive for use in the field or shop. Also available is the RJ624 Large Diameter Pipe Support for grooving pipe up to 24" in diameter, a perfect complement to the 920 Roll Groover.

- Largest grooving capacity in its class.
- **Transportation Mode** – Detachable wheels enable one man to easily move the 920 around a jobsite. Also available is a Model No. 32 Transporter.
- **Patented Depth Setting Gauge** – Easy and accurate groove depth setting does not require adjusting the protective guarding.
- **Built-in Pressure Gauge** – Helps operator monitor hydraulic pressure to control flare and optimize groove time.
- **Front Roll Set Change-Out** – User can switch groove roll sets quickly and easily.
- **Easy Adjust Support Legs** – Helpful when leveling the groover on uneven ground.

SPECIFICATIONS
