

LONGLIFE primer

Permanent primer

- Excellent filling power ■ Improves adhesion ■ Prevents clouding

Product profile

- With its permanent filling power, LONGLIFE primer restores damaged and porous linoleum floorings and supports the creation of uniform surfaces. It produces a longer life span and preservation of the original characteristics.
- LONGLIFE primer prevents clouding effects and is highly resistant to water and detergents. The protective finish even withstands deep cleaning.
- The time- and cost-saving LONGLIFE primer eases cleaning and is simple in application.
- Having applied the primer the flooring can be coated with any other LONGLIFE dispersion.

Area of application

- LONGLIFE primer is excellently suited for maintaining the value of all porous floorings like linoleum, porous stone, cement floor etc. Do not use for sealed surfaces and elastomer coverings.

Application and Dosing

Dose in relation to application. Follow below instructions.

Floor preparation: strip the floor, remove all dirt and old dispersion layers.

Initial treatment: apply 2-3 thin and uniform layers. Drying time between the applications at least 30min.

Large areas: work in sections and apply wet in wet. Usage: approx. 2 L / 100 m².

Ingredient declaration

For the ingredients list, please see the Safety Data Sheet

Sustainable development and production

Product safety, storage and environmental instructions

Safety: For professional use only. For further information see Safety Data Sheet.

Storage: Store at room temperature in the original container. Keep from freezing

Environmental: Only give completely emptied packaging to a special waste disposer.
