

MICROPITICH STEEL BODY

Permanent Magnetic Chuck

Application:

- Suitable for heavy and light grinding.
- It can also used in discharging process machine, carving machine, CNC.

Feature:

- While turning magnetic force ON/OFF, the flat face's accuracy of magnetic force surface doesn't change and keep high precision processing surface.
- The fine-pitched magnetic poles make it ideally suitable for small and thin work pieces..
- Made from permanent magnet, with strong and less remaining magnetism.
- Specially designed for steady and high precision operation.

Model	B	L	H	T	P	Magnetic (N/cm ²)
MCL-1010(AA)	100	100	45	18	0.5+1.5	140 or 120
