**Specifications**

Product Specification	Description
<b>Parameter</b>	pH
<b>Range</b>	0 to 13 pH
<b>Temperature Range</b>	0 to 100 °C
<b>Liquid Junction Type</b>	Annular ceramic
<b>Internal Reference Type</b>	Ag/AgCl
<b>Sealed/Refillable</b>	Refillable
<b>Reference Junction</b>	Single
<b>Refilling Reference Electrolyte</b>	ECRE001
<b>Dimensions (Shaft)</b>	130 x 12 mm
<b>Cable Length</b>	1 m
<b>Connector</b>	BNC
<b>Description</b>	General purpose glass-body pH electrode with protective sensor guard. Suitable for samples with low temperature measurements. Comes with 10 ml refilling electrolyte
<b>Used With</b>	All pH meters with BNC input connector
