

Roller Conveyor Weighing Scale / Check-weigher

- ✓ Tower Light
- ✓ Timer
- ✓ Rejector

Product Definition:

The Conveyor Roller Checkweigher are designed to weigh for parcels and packages which will bring efficiency improvement of weight performance in term of speed, accuracy & human error judgment weighing.

Functions:

- Hi Lo Limit – Check Weigher System
- Overweight / Underweight Air Cylinder Rejector
- Timer setting for weighing per parcel (Adjustable 1 to 60 seconds)
- Tower Light Buzzer
- Counting

Features:

- Bench scale with roller attachment on height-adjustable base frame in a conveyor line
- Accuracy Class III
- Stainless steel platform with integrated roller conveyor.
- Weighing range 30 kg / 60 kg / 150 kg
- Free maintenance and wear-free design of weighing technology
- Memory with time and date
- Special dimensions possible
- Connection to existing ERP systems

Technical Specification:

Model	CRW Series_1
Capacity x Readability	30kg x 2g 60kg x 5g 150kg x 10g
Accuracy	Class III (0.023%)
Display Resolution	1/15,000 Div
Weighing unit	kg, g, lb
Material for Scale Terminal & Structure	SS 304
Platform Size:	
Width:	600mm
Length:	800mm
Machine total height:	680 - 780mm
Power Source	With Built-in 6V Rechargeable Battery Adaptor DC 12V/2A
