

TFA – “WIND BEE” ANEMOMETER

Brand: TFA – Germany

Model: 42.6003.13

- Ideal for easy measurement of wind speed (at work or during various leisure activities)
- Highest and lowest values and display of the temperature
- Accuracy $\pm 3\%$
- Backlight

Product specification

The handy anemometer "WIND BEE" by TFA is the ideal tool for all sailors, kite surfers and outdoor enthusiasts. "WIND BEE" is also a useful companion at work or in various leisure activities.

The device displays the current wind speed and the highest and lowest values in kilometers or miles per hour, in meters per second or in knots.

In addition, the temperature is determined. "WIND BEE" has a tripod connector for measurements over a longer period of time.
