

RANKCON - Ageing Oven

Brand: Rankcon Instruments

Model: RCN-CY004A

Product introduction:

CY004A Ageing oven is suitable for the scientific research units and factories, also used in ageing test for the rubber, plastic, electrical insulation and other materials.

Feature:

- Temperature control adopt digital display
- PID automatic adjustment instrument
- From room temperature to 200 °C in the range can be arbitrary set the working
- Temperature, automatic constant temperature
- Equipped with sample turntable for ageing test
- The temperature control is sensitive, temperature uniformity and stable performance
- Conform to GB/T3512 standard

Application:

It is suitable for the scientific research units and factories, also used in industry of the rubber, plastic, electrical insulation, etc

Technical parameters:

- Temperature: room temperature to 200 °C
- Temperature accuracy: ± 1 °C
- Rotary speed: 10r/min~12r/min
- Working room size: 450 × 450 × 500 mm
- Rated power: 2.5kw
- Power supply : ac220v 50hz
- Dimension: 870mm×660mm×1350mm
