SUNDOO - SH Series Digital Force Gauge

Brand: Sundoo Model: SH Series

Description:

SH Series Digital Push Pull Force Gauge is multifunctional push pull testing instrument with high resolution. It is applied in push/pull test, insertion/withdraw test, and fracture test. More over, the product, connecting to computer to display the test force curve and test process, is efficient push pull testing equipment in a new generation.

Product Features:

- 1. High resolution and accuracy
- 2. Real-time value and peak hold
- 3. 10 groups test value could be memorized, and calculate the average automatically
- 4. Three unit select, N,kgf and lbf, blue backlight lamp
- 5. Automatic power off without any operation
- 6. Comparing function, upper limit and lower limit free setting
- 7. Connected to PC with software, the force curve could be viewed

Specifications:

Model	SH-2	SH-5	SH-10	SH-20	SH-50	SH-100	SH-200	SH-500		
Capacity	2N	5N	10N	20N	50N	100N	200N	500N		
Resolution	0.001N	0.001N	0.005N	0.01N	0.05N	0.1N	0.1N	0.5N		
Sensor type	Sensor Inside									
Test Range	10%-100%FS									
Accuracy	Within ±0.5%									
Adaptor	Input: AC 220V 50Hz Output: DC 12V 400mA									

Model	SH-1K	SH-2K	SH-5K	SH-10K	SH-20K	SH-50K	SH-100K	SH-200K	SH-500K	SH-1000K	SH-2000K		
Capacity	1000N	2000N	5000N	10KN	20KN	50KN	100KN	200KN	500KN	1000KN	2000KN		
Resolution	1N	1N	1N	0.005KN	0.01KN	0.01KN	0.05KN	0.1KN	0.1KN	0.5KN	1KN		
Sensor type		S Type Sesnor Outside							Cycle Type Sensor Outside				
Test Range	10%-100%FS												
Accuracy		Within ±1%											
Adaptor		Input: AC 220V 50Hz Output: DC 12V 400mA
