

# Dino-Lite Basic

For general purpose applications, where high image resolution and advanced hardware and software features are not strictly necessary, the Dino-Lite basic series is a good choice. These Dino-Lite models are affordable and an easy-to-use, but still have the same durability and quality as the more advanced Dino-Lite product series. A basic version of the proprietary DinoCapture software is included with each Dino-Lite. The magnification of the microscopes goes from 10 to 70x and around 200x.

## Applications

Economic and easy-to-use solution, mainly for home use and light professional applications such as:

- > Primary and secondary education
- > Hobbies (coins/stamps/minerals)
- > Printing/textile
- > Amateur biologists

1 Antique coin, 20x magnified
