

## Pneumatic Press Die Cut Machine Model: PCM-01

### Machine Introduction:

Pneumatic Press Die Cut Machine is pneumatically driven and designed with a hand safety switch to minimize safety concerns during operation. The tester with different kinds of cutter can quickly cut out various shapes of specimen. This punch is suitable for specimens of soft material such as paper, rubber, plastic and leather...etc.

### Industry:

Rubber, Plastic, Textile

### Technical data:

Output force	: 900kg
Output Source	: Min.4kg/cm <sup>2</sup>
Traveling Stroke	: 20 ~ 100mm
Pressure Plate Size	: L 200 x W 200mm
Base Plate Size	: L 220 x W 300mm
Machine Size	: 380 x 450 x 600mm
Weight	: 60kg
