

# UCA series

# AccuTEC

- + High Precision
- + Durable
- + Fast response
- + Good conering

The new UCA industrial scale from AccuTEC is a compact industrial scale in which combines two powerful weighing technologies : strain gauge loadcell technology and verified reading resolution of up to 30,000. Readability ranges from 0.1g to 2g

The new UCA offers exceptional performance features and, despite its wide variety of functions, is a very easy-to-operate industrial scale. It is extremely rugged and resistant, and comes with an array of features to meet the majority of user requirements in industrial sectors. The rugged design is very well suitable for daily use in dry areas.

The AccuTEC UCA series weighing scales come with a 2 years warranty on manufacturing defects. They constitute a wide and varied assortment of precise industrial scales of weighing ranges from 3Kg to 30Kg.

- + High Precision
- + Durable
- + Fast response
- + Good conering

### Features:
