

## Digital thermo-hygrometer 30.5002

Brand: TFA - Germany

Model: 30.5002

### Highlights:

- For a healthy indoor climate
- Monitoring of indoor temperature and humidity
- Max.- min. values display
- Large, easy-to-read display

### Product specification:

At least two thirds of a person's lifetime are spent indoors. Whether we feel well and comfortably at home depends to a great extent on the quality of the indoor air. Rooms that are too humid favour mould growth, but overly dry air can be harmful to our health and pets, plants, wooden floors and antique furniture will also suffer.

This functional thermo-hygrometer is an ideal measuring instrument for monitoring the indoor climate. You can easily keep an eye on temperature and humidity and regulate them with targeted heating and ventilation. This creates a pleasant and healthy living environment and even saves on heating costs. The highest and lowest values are stored and displayed at the push of a button. The large display makes reading easier.

### Function:

- Large display
- With max.-min. function
- Technical data

## Technical Specification:

<b>Delivery contents</b>	Thermo-hygrometer, battery, instruction manual
<b>Measuring range temperature indoor</b>	-10...+60°C (+14...+140°F)
<b>Measuring range humidity indoor</b>	10...99%
<b>Material</b>	Plastic
<b>Assembling</b>	Wall mounting or freestanding
<b>Power consumption</b>	Batteries
<b>Batteries</b>	1 x AAA 1.5 V
<b>Batteries included</b>	Yes
<b>Dimensions</b>	(L) 102 x (B) 21 (50) x (H) 110 mm
<b>Weight</b>	122 g
