

Industrial Grade - Dehumidifier Model: FL-S58M

Product introduction:

Dehumidifier is an air conditioning device which reduces and maintains the level of humidity in the air.

Features:

- Big Touch Screen Control Panel
- 8 Litre water tank & soft pipe for directly drain
- Fault self-check, fault diagnose automatically

Specification:

| Model | FL-S58M |
|--------------------------------------|-------------------------------------|
| Dehumidify Capacity (30°C, RH80% RH) | 58L/Day |
| Voltage | AC 220-240V/50Hz/1PH; 110V/60HZ/1PH |
| Air Circulation | 500m ³ /h |
| Air Filter | Primary/Medium/High |
| Power Input | 650W |
| Work Temperature | 5 - 38°C |
| Refrigerant Gas | R410A/R22/R407C |
| Dimension (L*W*H) | 372 x 394 x 700 mm |
| Net Weight | 40kg |
| Adjustable Humidity Range | RH 10 - 95% |
| Suitable for Floor Area | 40 - 60 m ² |
